SUMMARY

I am a Full Stack Web Developer passionate about learning and innovation. I excel at transforming ideas into impactful solutions with strong analytical skills and a keen eye for detail. Proficient in data structures and algorithms, I ensure efficient problem-solving and performance optimization. Thriving in collaborative team environments, I am committed to creating exceptional applications.

EDUCATION

B.Tech - Electrical Engineering   *June 2017 - May 2021*

Sardar Vallabhbhai National Institute of Technology (NIT Surat)

CGPA: 8.31

RELEVANT EXPERIENCE

American Express, Bengaluru, Karnataka   *June 2023 - Present*

Engineer 1

● Developed SafeKey Transaction Search UI for enabling internal teams to search through network transactions using **React.js**, **Redux**, and **Node.js**.

● Enhanced user management and dispute management systems for Mustang deals at American Express, onboarding 60+ partners and boosting potential earnings by $4M+. Technologies used include **React.js**, **Spring Boot**, **Node.js**, **Elasticsearch**, and **Couchbase**.

● Containerized a legacy application using **Docker** to improve deployment processes, reducing deployment time by 50%, minimizing human errors, and enhancing scalability and efficiency. The application serves as the onboarding and information interface for network partners.

Nokia Solutions And Networks, Noida, Delhi NCR   *July 2021 - June 2023*

Solution Engineer

● Developed core **Java** products to collect the network configurations. These were retrieved and audited against pre-defined data sets. GSAT and PAS projects to cater for AT&T and Verizon.

● Developed a responsive WebSCE UI for creating and modifying services using **React.js** and **Redux**. Responsible for developing components incorporating best development practices.

SKILLS

- JavaScript
- Java
- SpringBoot
- Jenkins
- Redux
- React.js
- Git and Devtool
- Data Structures and Algorithm
- Node.js
- Docker
